Office and Accommodation Modules

Brief Specifications:

Office and accommodation modules can be supplied either fully erected or in flat pack for self-assembly. Dimensions match ISO specifications therefore the modules can be delivered by road, rail, sea or air as shipping containers. The frame is of steel construction with welded corner castings, forklift pockets and recessed electrical connections. The roof is galvanised sheet steel with a pitch of 1.5%. Wall panels are built of a galvanised steel sheet externally, sound and heat insulation and an E1 chipboard inner shell, laminated on both sides. The floor comprises a welded PVC top surface with sound and heat insulation and a load bearing capacity of 2.5kN/m². Various door and window configurations are available and the modules can be supplied with a range of furnishings to suit office or accommodation requirements. Brief specifications are 6,058mm x 2,438mm x 2,591mm high with a tare weight of 2,000 kgs.
